DANIEL OKAFOR-REYES

Backend Engineer | Java and Kotlin

applicant.inbox@example.com | +44 7700 900123

PROFESSIONAL SUMMARY

Backend engineer with experience building Java and Kotlin services, REST APIs, and event-driven systems. Experienced with PostgreSQL, Kafka, Kubernetes on AWS EKS, automated testing, and production on-call. Python experience is limited to scripts; currently developing a Go CLI as a learning project.

TECHNICAL SKILLS

Backend: Java, Kotlin, Spring Boot, REST APIs, OpenAPI 3
Data and messaging: PostgreSQL, Oracle, Redis, Kafka, RabbitMQ, AWS SQS
Cloud and containers: Kubernetes (EKS), AWS S3, Docker
Testing and delivery: Testcontainers, Spring Cloud Contract, Jenkins helper scripts
Additional: Python scripting; Go learning project

PROFESSIONAL EXPERIENCE

Backend Engineer | Tejo Insurance Tech | 2022-Present

- Build and maintain Java and Kotlin Spring Boot microservices using Kafka and Kubernetes.
- Participate in the on-call rota; handled a Kafka lag incident in March 2024 and wrote a post-incident report that was praised.
- Run the backend guild meeting every two weeks, a responsibility held since 2024.

Software Developer | Viajar Online | 2019-2021

- Worked on booking and payments in a large Java application, including automated testing and service extraction.
- Increased payments-module test coverage from 35% to 70% using Testcontainers, enabling safer refactoring.

SELECTED PROJECTS

Partner Quoting API | Tejo Insurance Tech | 2022-2023

- Designed a versioned REST API using OpenAPI 3 for insurance brokers to request quotes.
- Added per-partner rate limiting and contract tests with Spring Cloud Contract; the API supported 12 broker partners and around 400,000 quote requests per month.
- Technologies: Java 17, Spring Boot, PostgreSQL, Redis, OpenAPI, Kubernetes (EKS).

Claims Outbox and Idempotent Consumers | Tejo Insurance Tech | 2023

- Implemented the transactional outbox pattern and consumer idempotency keys to address duplicate claim records caused by at-least-once Kafka delivery.
- Duplicate claims went from around 40 per week to zero over the following quarter.
- Technologies: Kafka, Spring Boot, PostgreSQL. Evaluated Debezium; it was not adopted.

Document Service in Kotlin | Tejo Insurance Tech | 2024

- Built a small internal Kotlin and Spring Boot service that renders policy PDFs from templates.
- Wrote the company's first Kotlin service guidelines.
- Technologies: AWS S3, AWS SQS.

Notifications Service Extraction | Viajar Online | 2021

- Extracted email and SMS notifications from the booking monolith into a separate Spring Boot service.
- Technologies: Java 11, Spring Boot, RabbitMQ, Thymeleaf, Oracle, Docker.

Go OpenAPI Diff CLI | Personal learning project

- Developing a CLI to diff OpenAPI specifications; approximately 600 lines of Go. Not a production project.

CERTIFICATION

Oracle Certified Professional Java SE 11 Developer | 2020

LANGUAGE

English: Worked fully in English at Tejo Insurance Tech.
