SAMUEL ACHTERBERG-OSEI

Cloud Infrastructure Engineer | Azure | Terraform | DevOps
applicant.inbox@example.com | +44 7700 900123

PROFESSIONAL SUMMARY

Cloud infrastructure engineer with hands-on experience designing and operating Azure environments, building infrastructure as code with Terraform, automating application delivery with Azure DevOps, and leading a 60-server VMware-to-Azure migration. Delivered a 60-server VMware-to-Azure migration without unplanned downtime and helped increase deployment frequency for internal applications from roughly monthly to several times per week.

CORE SKILLS

Cloud and infrastructure: Microsoft Azure, Azure IaaS, Azure Migrate, Azure VMs, Azure Firewall, virtual networks, VNet peering, private DNS, private endpoints, site-to-site VPN

Infrastructure as code and automation: Terraform, Terraform module testing with Terratest, drift detection, PowerShell

Platform and delivery: Azure DevOps Pipelines, YAML pipelines, AKS operations (upgrades, node pools, ingress), Docker, Helm, App Service

Systems and security: Windows and Linux servers, VMware, Microsoft 365, Entra ID, MFA, Conditional Access, mailbox auditing, backups

Programming and scripting: PowerShell; Python (small scripts); Go (Terratest tests)

PROFESSIONAL EXPERIENCE

Cloud Engineer (Contract) | Havenstad Logistics *2025–Present*

- Build and operate Azure infrastructure, Terraform modules, Azure DevOps pipelines, and AKS environments.
- Developed a hub-and-spoke Azure network across three subscriptions, including Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering.
- Added Terratest module tests to the pipeline and set up a nightly infrastructure drift-detection job.
- Replaced manual deployments for 15 internal .NET and Node applications with Azure DevOps YAML pipelines for build, test, and deployment to App Service or AKS.
- Helped increase deployment frequency from roughly monthly to several times per week for most applications.
- Operate AKS upgrades, node pools, and ingress; application manifests are owned by developers.

Systems Administrator | Maasbrug Gemeente IT Services *2014–2020*

- Administered approximately 250 Windows and Linux servers and supported IT services across several municipal services.
- Led the planning and execution of the migration of 60 servers from VMware to Azure IaaS using Azure Migrate.
- Completed the cut-over over six weekends with no unplanned downtime.
- Worked with Azure VMs, VNets, site-to-site VPN, and PowerShell automation.

Freelance IT Support *2022–2023*

- Created a repeatable PowerShell script and checklist for small-business Microsoft 365 security baselines.
- Enabled MFA, Conditional Access, mailbox auditing, and backups for small clients.

CAREER BREAKS AND PROFESSIONAL DEVELOPMENT

Career break *Mar 2020–Aug 2022*

- Took time away from paid work to provide full-time care for a family member.
- Kept Azure Administrator Associate knowledge current and provided unpaid IT help to church and family.

Professional development *Feb 2024–Feb 2025*

- Completed a three-month, part-time, online English-language cloud bootcamp in Dec 2024.
- Built a Proxmox homelab and studied Terraform; passed the Terraform Associate certification in 2025.

SELECTED PROJECTS

Azure Landing Zone Networking | Havenstad Logistics *2025*

- Built a Terraform hub-and-spoke network across three Azure subscriptions, with Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering.
- Added Terratest module tests to the pipeline and a nightly drift-detection job.

Release Pipelines for Internal Apps | Havenstad Logistics *2025–2026*

- Replaced manual deployment processes for 15 internal .NET and Node applications with Azure DevOps YAML pipelines covering build, test, and deployment to App Service or AKS.
- Increased deployment frequency from roughly monthly to several times per week for most applications.

VMware to Azure Migration | Maasbrug Gemeente IT Services *2019*

- Planned and executed the migration of 60 servers to Azure IaaS using Azure Migrate; completed cut-over over six weekends without unplanned downtime.

Small-business Microsoft 365 Security Baseline | Freelance *2022–2023*

- Developed a reusable PowerShell script and checklist covering MFA, Conditional Access, mailbox auditing, and backups.

CERTIFICATIONS

- Azure Administrator Associate
- Terraform Associate (2025)

TRAINING

- Cloud bootcamp, part-time and online; completed Dec 2024
