Samuel Achterberg-Osei

Cloud Infrastructure / DevOps Engineer | Azure | Terraform

applicant.inbox@example.com | +44 7700 900123

PROFESSIONAL SUMMARY

Cloud infrastructure engineer with more than eight years of IT experience, including hands-on work designing and operating Azure infrastructure, Terraform modules, Azure DevOps pipelines, and AKS. Built Azure hub-and-spoke networking across three subscriptions and automated deployments for 15 internal applications. Earlier systems administration experience includes Windows and Linux servers, VMware, and a 60-server Azure migration completed over six weekends without unplanned downtime.

CORE SKILLS

Cloud and infrastructure as code: Microsoft Azure, Terraform, Azure landing zones, Azure Migrate, Azure VMs
Networking: Hub-and-spoke networks, Azure Firewall, VNet peering, private DNS zones, private endpoints, site-to-site VPN
DevOps and containers: Azure DevOps YAML pipelines, Docker, AKS operations, Helm, App Service
Systems administration: Windows and Linux servers, VMware, Proxmox
Automation and testing: PowerShell, Python (small scripts), Go (Terratest tests), Terratest, drift detection
Security: Microsoft 365, Entra ID, MFA, conditional access, mailbox auditing, backups

PROFESSIONAL EXPERIENCE

Cloud Engineer (Contract) | Havenstad Logistics *2025–Present*

- Build Azure landing-zone infrastructure and Terraform modules, including hub-and-spoke networking across three subscriptions.
- Implement Azure DevOps YAML pipelines for 15 internal .NET and Node applications, deploying to App Service or AKS; deployment frequency increased from roughly monthly to several times per week for most applications.
- Operate AKS, including upgrades, node pools, and ingress; application manifests are owned by developers.
- Add Terratest module tests to the pipeline and a nightly infrastructure drift-detection job.
- Contract scheduled to end February 2027.

Systems Administrator | Maasbrug Gemeente IT Services *2014–2020*

- Administered around 250 Windows and Linux servers and supported staff across several municipal services.
- Planned and executed the migration of 60 servers from VMware to Azure IaaS using Azure Migrate; completed cutover over six weekends with no unplanned downtime.
- Used PowerShell to automate repetitive administrative work.

Freelance IT Support *2022–2023*

- Created a repeatable PowerShell script and checklist for small-business Microsoft 365 security baselines, including MFA, conditional access, mailbox auditing, and backups.

CAREER BREAKS AND PROFESSIONAL DEVELOPMENT

Family caregiving *March 2020–August 2022*

- Took time away from paid work to provide full-time care for a family member; maintained Azure Administrator Associate knowledge and provided unpaid IT help to a church and family.

Independent study and cloud training *February 2024–February 2025*

- Completed a part-time, online, English-language cloud bootcamp in December 2024.
- Studied Terraform and built a Proxmox homelab; passed the Terraform Associate certification in 2025.
